RE: Website Design work completed by Jean Greeff

To whom it may concern

This letter serves as confirmation that Jean Greeff successfully completed a complete redesign of our company website. The look was outdated and we were in need of some energy and excitement in our site.

We luckily collaborated with Jean who pitched new ideas and delivered on his promises. One can clearly see that Jean has an artistic background and this showed in all aspects of the work he executed; we would say this was one of the main features which set him apart from the other web designers we had canvassed.

In addition to his artistic flair, Jean exhibited a great work ethic, setting milestones and meeting his targets. His communication throughout the process was thorough and he was patient with the many requests we had, irrespective of how unusual they were.

If you are looking for a fresh, eye-catching and well executed website we would certainly recommend Jean Greeff.

Yours Faithfully

Christopher Proudfoot
Trade and Sales Director
