

To whom it may concern:

Jean Greeff:

I have recently been Jean Greeff's client as he designs my new professional website. Jean has demonstrated impressive skills not only in website design but additionally in the process of successfully guiding me as his client.

The brief he has is for a website that is professional, clear and eye-catching, but also contemporary and elegant. His training and experience as an artist (he is an accomplished painter) brings to his work an understanding of colour and visual finesse that is critical for my needs and I have been most impressed with the creativity that he has brought to this process. In addition he has consistently demonstrated an intuitive and efficient skill in understanding my needs as he distills these into the design.

I have also been most impressed with his outstanding interpersonal skills, which has made our collaboration most enjoyable. I have appreciated his consistent, quiet courtesy and am delighted with the result so far. I am certain he will produce an outstanding design for me.

I have no hesitation in recommending him and his work.
